

## Bug Report

**Bug ID:** BR-004

**Title:** Last Name Field Not Updating via PUT /api/contacts/{id} Endpoint.

**Priority:** High

**Severity:** High

**Description:** When using the PUT /api/contacts/{id} endpoint to update a contact's details, all fields are updated successfully except for the last name field. The last name remains unchanged despite providing a valid updated value in the request payload.

### Environment:

- **OS:** Windows 11
- **Browser:** Chrome 131
- **API Testing Tool:** Swagger UI v1
- **Endpoint:** Put /api/Contacts/{id}

### Steps to Reproduce:

1. Navigate to [API Link](#)
2. Use the login endpoint to login and obtain a token so you can start testing.
3. Use the PUT /api/Contacts/{id} endpoint to update an existing contact by providing a valid contact ID and the updated details in the request body.
4. Update last-name field in Updated contact details and execute the response.
5. Use Get api by the provided id.
6. Execute the response.

**Expected Result:** The last-name field should update to the value provided in the request payload.

**Actual Result:** The lastName field remains the same as its previous value.

**Attachments:**

- **Response Details:**
  - Status Code: 200
- **Screenshot:**

PUT

/api/Contacts/{id} Updates an existing contact

Parameters

Cancel

Reset
